

Features

- * Stereo 31 bands equalizer by two channels.
- * Rack mount type in 2U height.
- * Mono bass output frequency adjustable.
- * Each channel with high-pass & low-pass filter switch.
- * 12 level input & output indicator.
- * Input and output both by three type connectors: phone jack, XLR and phoenix.

Specifications

Model	TS-231
Channels	Two
Bands	(2x31) 1/3-Octave ISO Spacing (From 20Hz to 20 KHz)
Travel	20mm(Positive grounded center detent)
Range	± 12 dB
Impedance	$>20K \Omega$ Balanced
Maximum Level	+21dB
Impedance	400 Ω Balanced, 200 Ω Unbalanced
Maximum Level	+21dBu Balanced; +15dBu Unbalanced
Low Cut Filter	10-240Hz, 12dB/octave
High Cut Filter	3K-40KHz, 12dB/octave
Frequency Response	20-20KHz(± 0.5 dB), 10-40KHz(+1/-3dB)
THD & Noise	0.008%
S/N Ratio	96dB
Maximum Power	12W
Universal Line Voltage	$\sim 110V/60Hz$ or $\sim 230V/50Hz$
Dimensions	484x156x88mm
Weight	3.58Kg
